PROFESSIONAL SUMMARY

Frontend Developer with 2 years of experience crafting responsive, production-ready web apps with React.js, Next.js, and TypeScript. I enjoy building things that are both well-structured under the hood and smooth to use — from scalable component systems to API integrations and form flows. I work well in Agile teams, care about clean code, and bring the same attention to detail to every project I take on.

PROFESSIONAL EXPERIENCE

Deci & eYouth - Trainer (Part-time)

Jul 2026 – Present

Delivered educational content in a clear and engaging manner, combining theoretical explanations with hands-on activities and practical exercises to strengthen students' understanding. Managed training sessions end-to-end, including attendance tracking, session documentation, student management, and fostering an interactive learning environment that encouraged participation and engagement. Followed the training plan and session schedules while maintaining continuous coordination with the program coordinator to ensure smooth program delivery. Represented the organization professionally throughout the training process, contributing to a positive student experience and high-quality learning outcomes.

Self-Employed

Sep 2025 – Present

Dedicated this period to deepening my frontend expertise through self-directed projects, exploring new technologies, and strengthening my skills across the React ecosystem. Used the time to build hands-on experience with tools and patterns I now apply in production environments.

StoriaKids - Frontend Developer

Feb 2024 – Jul 2025

I built and maintained two products from the ground up — a public website and an internal CRM/employee management system used by 15+ people — turning Figma designs into responsive interfaces with HTML, CSS, JavaScript, and Bootstrap. I integrated REST APIs using Fetch across both systems, handling real-world data and edge cases while keeping performance and mobile experience smooth. Working in an Agile team alongside designers and backend developers, I managed feature branches, pull requests, and code reviews on GitLab across both codebases over a year and a half.

PROJECTS

Freshcart-Nextjs | [live-demo](#) [GitHub](#)

A performant e-commerce frontend built with Next.js leveraging SSR and SSG for exceptional SEO and load times, complete with carousels, cart management, and dynamic rendering.

linkedPosts-React.js | [live-demo](#) [GitHub](#)

A full-featured social media platform with modular React component architecture, server-state management, and seamless dynamic routing for an engaging social experience.

storiaKids-vanilla js | [live-demo](#) [GitLab](#)

A responsive frontend web application for creating personalized children's stories, featuring interactive story browsing, customization flows, and a user-friendly experience built with HTML, CSS, Bootstrap, and Vanilla JavaScript.

treviaQuizWebsite-vanilla js | [live-demo](#) [GitHub](#)

A dynamic trivia quiz web application that generates randomized questions across multiple topics to test user knowledge, built with HTML, CSS, and Vanilla JavaScript and deployed on Vercel.

Adasa-React.js | [live-demo](#) [GitHub](#)

A blog specializing in the art of experimental photography, sharing professional secrets and essential tips to sharpen your skills.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, C++, Python, SQL, Java

Frameworks & Libraries: React.js, Next.js, React Query, Tailwind CSS, Bootstrap, Shadcn UI, Hero UI, Radix UI, Laravel

Forms & Validation: React Hook Form, Hookform Resolvers, Zod

API & Data: RESTful APIs, Axios, Fetch API, JSON

Tools & Platforms: Git, GitHub, GitLab, Vite, npm

Core Concepts: Responsive Design, SSR/CSR, Dynamic Routing, Component Architecture, Performance Optimization, Agile/Scrum

EDUCATION

Alexandria University & Egyptian E-Learning University (Joint Program) - B.Sc. in Computers and Information Technology

Graduated Jul 2023

PROFESSIONAL TRAINING & CERTIFICATES

Route Academy - Frontend Development Diploma

Completed: March 2026

Awarded for Outstanding Performance and Being One of the Top Achievers in the Frontend Development Diploma.
