PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building responsive, production-ready web applications using React.js, Next.js, and TypeScript. Experienced in reusable component architecture, REST API integration, form validation, server-state management, and responsive UI development. Comfortable working in Agile teams and collaborating with designers and backend developers.

PROFESSIONAL EXPERIENCE

Deci & eYouth — Trainer (Part-time) | Jul 2026 – Present

Deliver educational content through hands-on activities and practical exercises. Manage training sessions, attendance, documentation, and student engagement while coordinating with program staff to ensure smooth delivery.

Independent Frontend Developer | Sep 2025 – Present

Deepened frontend expertise through hands-on projects across the React ecosystem, exploring modern development patterns and technologies and applying them to production-oriented applications.

StoriaKids — Frontend Developer | Feb 2024 – Jul 2025

Built and maintained two products from the ground up: a public website and an internal CRM/employee management system used by 15+ people. Translated Figma designs into responsive interfaces using HTML, CSS, JavaScript, and Bootstrap. Integrated REST APIs with Fetch API across both systems, handling dynamic data, error states, and edge cases while maintaining performance and mobile responsiveness. Collaborated with designers and backend developers in an Agile environment, managing feature branches, pull requests, and code reviews on GitLab across two codebases.

SELECTED PROJECTS

Freshcart — Next.js | [Demo](#) | [GitHub](#)

Scalable e-commerce frontend built with Next.js, React 19, and TypeScript. Uses SSR/SSG for performance and SEO, with reusable components using Shadcn UI, Radix UI, and Tailwind CSS. Includes authentication flows with NextAuth/JWT, form validation with React Hook Form and Zod, cart management, carousels, and dynamic rendering.

LinkedPosts — React.js | [Demo](#) | [GitHub](#)

Full-featured social media platform built with modular React components, React Query for server-state management, Axios for REST API integration, React Router for dynamic routing, and React Hook Form/Zod for validated forms.

StoriaKids — Vanilla JavaScript | [Demo](#) | [GitLab](#)

Responsive web application for creating personalized children's stories, featuring interactive story browsing, customization flows, and a user-friendly experience built with HTML, CSS, Bootstrap, and Vanilla JavaScript.

Trevia Quiz Website — Vanilla JavaScript | [Demo](#) | [GitHub](#)

Dynamic trivia quiz application that generates randomized questions across multiple topics, built with HTML, CSS, and Vanilla JavaScript and deployed on Vercel.

Adasa — React.js | [Demo](#) | [GitHub](#)

Experimental photography blog focused on sharing professional photography insights, tips, and educational content.
